

Competency-mapped Learning: Need of the Hour

Harbinger's Competency-based Learning Framework (CBLF)

-  Define competencies
-  Map content to competencies
-  Identify skill gaps
-  Assign learning content & track progress
-  Continuous assessment

Targeted and focused

Personalized and employee-centric

Ongoing engagement and involvement

Enhanced relevance to business and work

Learning for present and future

Why Competency-based Learning?

Challenges in implementation

-  Resistance to change
-  Defining clear competencies for various roles and levels
-  Mapping existing content
-  Delivering content with existing LMS
-  Tracking deep analytics on competencies
